Fall 2008

ECONOMETRICS TUTORIALS

Optional tutorial sessions for sections 01 and 02 of EC 228 will be offered:

- Monday 3:00-4:00 PM, Carney 002
- Wednesday 9:00-10:00 AM, Carney 009
- Friday 12:00-1:00 PM, Carney 009

The tutorial sessions give you an opportunity to get assistance with problems in the homework assignments, particularly in terms of your use of Stata in empirical exercises. Attendance at the sessions is optional and space is limited. Please select one of the three times and sign up for that time. You may attend at a different time, but we would like to ensure that not too many people show up for any of the times, given that there are 85+ students enrolled in econometrics this semester.

Tutorials will meet starting on Monday, 15 September.
