PROBLEM SET 3

**Due at classtime, Monday 10 March 2014**

Problem sets should be your own work. You may work together with classmates, but if you're not figuring this out on your own, you will eventually regret it.

For each of the empirical problems, hand in a printout from Stata, annotated with your comments. The "log" icon in the Stata toolbar may be used to create a file containing both your commands and Stata's response. It may be easier to work with a text-format log; the command `log using ps2.log` will create a text log. Use the 'Viewer' within Stata to examine and print the log.

Chapter 17:

1. Problem 1
2. Problem 2
3. Problem 6
4. Problem C2
5. Problem C3
6. Problem C6
7. Problem C9
8. Problem C13
