EC 202 Macroeconomic Theory  
Spring 2014  
(Subject to change, at the discretion of the instructor)

Instructor: Can Erbil  
E-mail: can.erbil@bc.edu  
Office: 21 Campanella Way, Maloney Hall 381

Office Hours: Wednesdays 11:00am - 12:30pm and by appointment only

Required Text: N. Gregory *Mankiw, Macroeconomics*. Worth Publishers, 8th edition, 2012, available at the BC Bookstore (or direct from the publisher or Amazon, see further information on page 7)

Also required: Aplia (see below, at the very end of the syllabus)

Also required: Simple calculator – no graphing calculators will be allowed. Please buy one in advance before our first midterm exam.

[PLEASE NOTE THAT: ATTENDANCE IS MANDATORY FOR THIS COURSE AND EACH STUDENT IS EXPECTED TO ATTEND THE SECTION HE/SHE IS REGISTERED IN].
Course Overview:

This course provides an introduction to the modern theory and practice of macroeconomics. It covers a variety of classic questions in macroeconomics including: What are the determinants of long-run economic growth? Why do economies regularly experience booms and recessions? Why is there unemployment? What determines the value of money in an economy? The course focuses particular attention on how macroeconomic policy (monetary and fiscal) affects outcomes in these dimensions, and on using the tools of the field to evaluate alternative policy responses to current events.

The total amount of reading in this course is modest, but the prudent student will read it several times. I highly recommend that you read the material assigned before we discuss it in class, and then read it again afterwards. The course material is cumulative, with each topic building on prior ones, so missing classes and falling behind are particularly bad ideas.

Supplements and Current Economic News:

I will also post a set of supplements for the course, prepared by Prof. Bob Murphy, on our BB Vista. These Supplements will often go into more depth than the textbook or highlight issues not directly covered in the text.

As time allows, we will discuss some of these in class, but most of them are for your own enjoyment.

I also encourage you to follow current economic issues by reading on a daily basis one of the major national newspapers (e.g., The Wall Street Journal, The New York Times, and The Washington Post). Fortune, Business Week and the Economist magazines also are good sources for keeping up on economic events. We will frequently discuss the current state of the economy and current policy debates in class, and homework and exams are likely to ask you for an informed discussion of current events.

I will post articles of interest to you on our BB Vista site. If you see something related to one of our topics, send it to me, and I may pass it on to your classmates.

I encourage discussion in class by asking you questions, which I urge you to think about and answer. I also encourage you to ask questions in class, especially when you are confused. If you are confused, so are many of your classmates. Do us all a favor, and speak up! I take attendance and class participation will determine part of your grade (see below).

I urge you to study this material together. You can learn as much from each other as you can from the textbook or from class.
Prerequisites:

Principles of Microeconomics (EC131)
Principles of Macroeconomics (EC132)
One semester of calculus (MT100 or MT102)

To enjoy this class you must be able and willing to deal with a few technicalities. You should be familiar with these tools in advance.

Problem Sets:

I will assign problem sets from Aplia. Some of these will be graded, and some problem sets will be for practice only.

I may post additional problem sets from the “end-of-chapter” questions of Mankiw’s textbook on BB Vista. These problem sets are to be handed in during class on the due dates. I urge you to work through these problems and check the answer keys. You may work together on the problem sets.

You may work in groups, but each student must turn in her or his own work. Aplia does not accept late homework.

Grading:

Attendance & Class Participation: 15%
Problem Sets: 10%
Exam#1 [date TBA] 20%
Exam#2 [date TBA] 20%
Exam#3 [date TBA] 20%
Policy Analysis/Case Study: 10%
Group Presentation: 5%

All exams will be in our classroom, during regular class time. Dates are to be determined.

The examinations will be a combination of multiple-choice questions, “true or false” questions, graphical and numerical problems, and short essays.

If you have to miss a midterm, please let me know as soon as you know it. Please note that I can only use my discretion to excuse you from the exam, when I receive formal notification from your dean about your case.

There will be NO make-up exams; if you miss an exam, the weights on your subsequent exams will be increased proportionately.

Any unverified absence from an exam will result in a zero score for that exam.
**Policy Analysis/Case Study:**

The policy analysis assignment will be due on the last week of the course. This assignment will allow you to chose a current event and analyze it with the macro tools and models we developed in class during the semester.

It is a short analysis (3-5 pages) with a focus macroeconomic policy. More detailed information and guidelines will be posted on BB Vista during the semester.

**Group Presentation:**

Groups will consist of five students each. I will assign a different topic to each group during the semester. Each group will have one week to prepare a brief presentation before the class. Presentations will be in power point or a similar media format. Each presentation will be 10-15 minutes max (2-3 minutes per student).

**Information Dissemination:**

All lecture notes, homework assignments, project instructions, as well as some supplementary material will be available on Blackboard Vista (BB Vista). Please check BB Vista frequently as the additional problem sets, answer keys, notes, announcements and more will be posted there (as .pdf) and will be available for you to download/access.

In addition, Worth Publishers has a web site that accompanies the textbook (http://bcs.worthpublishers.com/mankiw8) where you will find some useful materials.

If you need to submit your homework electronically, please do so by email before the beginning of class on the due date.

The best way to reach me is via e-mail (can.erbil@bc.edu). Please don’t leave any voice messages on my office phone, since I don’t check them on a regular basis.

**Academic Integrity, Disability Services:**

Any infraction of Boston College’s Academic Integrity Policy (available online at http://www.bc.edu/offices/stserv/academic/resources/policy.html#integrity) will result in an automatic F for the course and the offense will be reported to the Dean’s office. There will be no exceptions. Boston College is committed to providing equal and integrated access for students with disabilities to all available academic, social, and recreational programs and activities.

The Disability Services Office at Boston College ensures that students with disabilities receive appropriate accommodations and assistance in order to participate fully in University programs. Students requiring assistance are advised to get in touch with the Office of the Dean for Student Development (on the web at http://www.bc.edu/offices/odsd/disabilityservices.html).
Optimizing Your Performance:

Here are some suggestions that may help you to have the best chance to do well in my class:

1) **Attend the lecture.** The purpose of the course is to teach you something, not to toss out information and see how much sinks in.

2) Do the **assigned readings** before class to get a preview of the material to be covered and to prepare any questions you have about this material. Study the material, don’t just read it.

3) Check our **course website** regularly. I will update it weekly to indicate our progress on the outline.

4) Take the **problem sets** seriously, because they are the best indication of whether you understand the material and they are the best preparation for the exams.

5) When preparing for exams, let the **lectures** guide you as to what is really important.

6) And by all means, seek help if you need it, and before you get hopelessly behind.

**Flu:**

If you develop flu symptoms, do not go to class. Try to keep up with class assignments using the materials available on BB Vista and notify your dean and me. For more information please refer to the H1N1 Academic Protocols for Faculty and Students at [http://www.bc.edu/offices/uhs/education/H1N1_flu.html](http://www.bc.edu/offices/uhs/education/H1N1_flu.html).
Syllabus
(Preliminary and subject to change at the instructors discretion)

(1st week)
**Part I: Introduction**
1. The Science of Macroeconomics (summary)
2. The Data of Macroeconomics (summary)

**Part II: Classical Theory: The Economy in the Long Run**
3. National Income: Where It Comes From and Where It Goes

(2nd-5th weeks)
**Part II: Classical Theory: The Economy in the Long Run (continued)**
4. The Monetary System: What It Is, and How It Works
5. Inflation: Its Causes, Effects, and Social Costs
6. The Open Economy
7. Unemployment

(6th week)
**Part III: Growth Theory: The Economy in the Very Long Run**
8. Economic Growth I: Capital Accumulation and Population Growth

(7th-11th weeks)
**Part IV: Business Cycle Theory: The Economy in the Short Run**
10. Introduction to Economic Fluctuations
11. Aggregate Demand I: Building the IS-LM Model
12. Aggregate Demand II: Applying the IS-LM Model
14. Aggregate Supply and the Short-run Tradeoff Between Inflation and Unemployment

(12th week)
**Part VI: Topics in Macroeconomic Policy**
20. The Financial System: Opportunities and Crises

[Optional]
**Part V: Topics in Macroeconomic Theory**
15. A Dynamic Model of Aggregate Demand and Aggregate Supply
16. Consumption
17. Investment
18. Stabilization Policy
19. Government Debt and Budget Deficits
Student Purchase Options for

*Macroeconomics, Eighth Edition*

by N. Gregory Mankiw

©2012 Worth Publishers

Hardcover

This book is **REQUIRED** for your course.

**Print Book**

- Paperback print text
  - Loose-leaf print text (about 2/3 cost of print book)
    - Get it at your campus bookstore
    - Get it online from the publisher at [http://www.worthpublishers.com](http://www.worthpublishers.com)

**e-Book Options: ½ the cost of the print book**

- **Worth e-Book:** web-based interactive e-Book accessible on any computer

- **CourseSmart e-Book:** downloadable e-Book accessible on a computer or via app on the iPad, iPhone, iPod Touch, Android devices, Kindle Fire, Nook Color, or Nook Tablet
  - Go to [http://www.coursesmart.com](http://www.coursesmart.com) and browse by ISBN, author, or title to find your e-Book. Add your course materials to your Cart and checkout.
  - To use your digital course materials, go to "My Bookshelf" and start reading.

**FREE study tools available**

- **Student site:** Worth media adds value, not cost.
  - Our free student sites gives you a way to access your book online. These book-specific sites provide one destination to practice, prepare, take quizzes, and study. You can also access the e-Book and multimedia resources.
  - Go to [http://bcs.worthpublishers.com/mankiw8/](http://bcs.worthpublishers.com/mank iw8/) to start accessing your free study tools.
How to access your Aplia course

Macroeconomic Theory - Spring 2013

Instructor: Can Erbil
Start Date: 01/13/2014
Course Key: TAL5-UFYE-67WN

Registration

Aplia is part of CengageBrain, which allows you to sign in to a single site to access your Cengage materials and courses.

1. Connect to http://login.cengagebrain.com/
2. If you already have an account, sign in. From your Dashboard, enter your course key (TAL5-UFYE-67WN) in the box provided, and click the Register button.
   If you don't have an account, click the Create a New Account button, and enter your course key when prompted: TAL5-UFYE-67WN. Continue to follow the on-screen instructions.

Payment

Online: After registering, you can buy access to Aplia from myhome.cengagebrain.com.

Bookstore: Purchase access to Aplia from your bookstore. Check with the bookstore to find out what they offer for your course.

If you choose to pay later, you can use Aplia without paying until 11:59 PM on 02/02/2014. After paying, you will have the option to purchase a physical book at a discounted price.

For more information on registering for Aplia, please visit http://www.cengagebrain.com/aplia/.
