

2001 SCF Chartbook

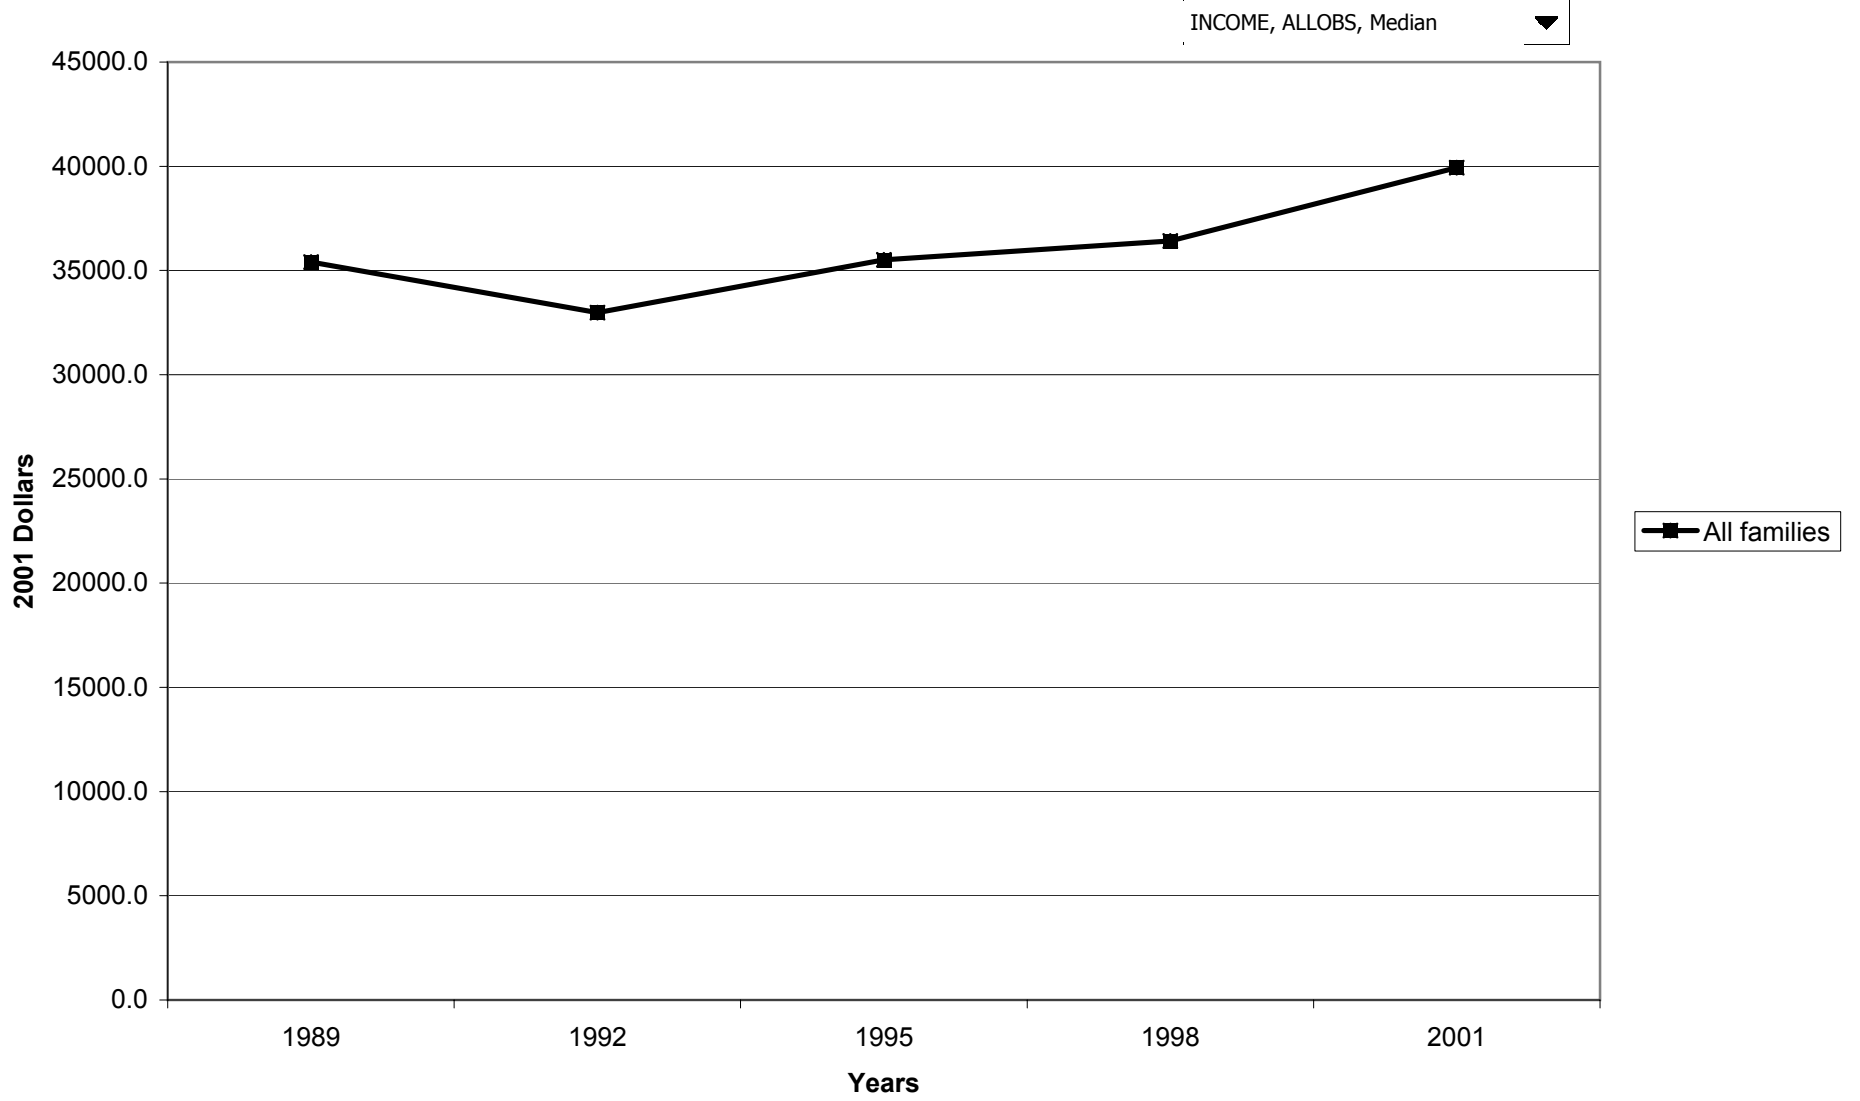

This file contains time series charts using triennial SCF data covering the period 1989 to 2001. The variables included are ones that appeared in the tables in "Recent Changes in U.S. Family Finances: Evidence from the 1998 and 2001 Survey of Consumer Finances" by Ana M. Aizcorbe, Arthur B. Kennickell, and Kevin B. Moore, Federal Reserve Bulletin, vol. 18 (January 2003), pp. 1-32; variable definitions are given in that article. These variables are analyzed separately for all families and by a variety of characteristics, such as age and income groups. For each variable and classification group, the charts show the percent of families in the group who have the item and the median and mean amounts of holdings for those who have any. All dollar estimates are given in 2001 dollars.
